## PROJECTS

Apr/2019

**News for You** [www.news-foryou.com](http://www.news-foryou.com)

- a compact, single page news aggregation React website displaying news articles updated live from the News API
- option to choose from the top headlines of over 50 countries or 30 sources
- live streaming news channels, fully responsive on all devices
- Api integration made with Axios

**Built with:** React, JavaScript & CSS

Mar/2019

**News-for-You** <https://news-for-you.herokuapp.com>

- the full-stack version of News For You with user registration and authentication
- full stack CRUD functionality for saving user info and news articles in MongoDB
- Api integration made with Axios

**Built with:** React, JavaScript, Node.js, MongoDB, Mongoose, Express & CSS

Dec/2018 - Jan/2019

**Book Your Adventure** <https://app-booking.herokuapp.com>

- a rental booking platform made in collaboration with another developer
- user registration and authentication, password encryption, protected routes
- built custom RESTful API in Node.js and Express providing endpoints for both routing and for post/put/delete CRUD functionality

**Built with:** React, JavaScript, MongoDB, Mongoose, Node.js, Express & CSS

Nov/2018

**Shell-Game** <http://shell-game.herokuapp.com>

- a fully responsive full-stack application made in React with CSS animations
- custom API routes built with Mongoose and Express to save player info in MongoDB

**Built with:** React, JavaScript, MongoDB, Mongoose, Node.js, Express & CSS
