PROJECTS

May/2019 - News for You *www.news-foryou.com*
- a compact, single page news aggregation website displaying news articles updated live from the News API
- live streaming news channels, fully responsive on all devices
- Api integration made with Axios

Built with: **React, JavaScript & CSS**

Mar/2019 - News for You2 *https://news-for-you.herokuapp.com*
- full-stack version of NewsForYou with user authentication
- built custom RESTful API in Node.js and Express providing endpoints for both routing and for get/post/delete CRUD functionality for saving news articles in MongoDB

Built with: **React, JavaScript, Node.js, MongoDB, Mongoose, Express & CSS**

Feb/2019 – Write Something *https://write-some.herokuapp.com/*
- full-stack MERN journal with user authentication
- complete CRUD functionality for saving, editing or deleting entries

Built with: **React, JavaScript, MongoDB, Mongoose, Node.js, Express & CSS**

Dec/2018 - Book Your Adventure *https://app-booking.herokuapp.com*
- a jet ski rental booking platform with user registration and authentication, password encryption, protected routes
- built custom RESTful API in Node.js and Express providing endpoints for both routing and for get/post/put/delete CRUD functionality

Built with: **React, JavaScript, MongoDB, Mongoose, Node.js, Express & CSS**

Oct/2018 - Shell Game *http://shell-game.herokuapp.com*
- a fully responsive full-stack game made in React with CSS animations
- custom API routes built with Mongoose and Express to save player info in MongoDB

Built with: **React, JavaScript, MongoDB, Mongoose, Node.js, Express & CSS**

Aug/2018 - Exchange Rates *http://exrates.surge.sh*
- front-end React website displaying and converting all the world currencies
- the application gets the data from the Fixer API using Axios, having Euro as base currency

Built with: **React, JavaScript, CSS**
