PROJECTS

Book Your Adventure *https://app-booking.herokuapp.com*
- Full-Stack user friendly rental booking platform with user authentication , password encryption and protected routes
- Built custom RESTful API in Node.js and Express providing endpoints for both routing and for post/put/delete CRUD functionality

<u>Built with:</u> React, JavaScript, MongoDB, Mongoose, Node.js, Express & CSS

Shell-Game *http://shell-game.herokuapp.com*
- a fully responsive full-stack application made in React with CSS animations
- Custom API routes built with Mongoose and Express to save player info in MongoDB

<u>Built with:</u> React, JavaScript, MongoDB, Mongoose, Node.js, Express & CSS

Exchange Rates http://exrates.surge.sh
- Front-End React website displaying and converting all the world currencies
- the application gets the data from the Fixer API with Axios, having Euro as base currency

<u>Built with:</u> React, JavaScript & CSS
